

RESEARCH GRANTS COMMITTEE

VISHNU DENTAL COLLEGE

Application for research grant

1. Principal investigator (name & title)

Department or unit

Mailing address:

City State ZIP code

Telephone FAX:

E-mail:

2. Project title

3. Proposed starting and completion dates:

4. Total cost of project _ _____

Total cost, year 1 _ _____

Total requested, year 1 _ _____

5. Summary of proposed budget (Attach itemized breakdown)

a. Salaries and wages _ _____

b. Staff benefits _ _____

c. Supplies/materials _ _____

d. Equipment* _ _____

e. Other (itemize) _ _____

Total _ _____

6. Does the proposed study involve human or animal subjects? Yes No

If yes, please attach letter and/or date of approval by IERB of the institution or other appropriate committee if animals are used. Updates of

Human Subjects approval and any protocol revisions must be submitted to the RGC.

7. Does the proposed study involve the development or use of patented or potentially patentable materials in which you or others involved have a proprietary interest?

Yes No

Sign of applicant

To be filled by RGC

Received on:

Approved/disapproved on:

Regd. No : VDC/RGC/2013/

Sign of convenor RGC

Investigators will be notified about the progress through e-mail

Instructions for Completing Application

1. On a separate page(s) provide a detailed budget for the first year of the project. List all costs to be covered by the funds requested from the RGC. List all personnel to be included in the project, whether or not salaries are requested. Indicate percent of effort or hours per week for each person. Also list in detail costs for the following:

- a. Consultants
- b. Supplies
- c. Travel necessary to conduct the research
- d. Specify other costs to be covered by the funds requested.

2. Describe roles of all personnel in the project.

3. Provide a brief justification for all other items in the budget.

4. When requesting a grant for a complete project, please describe in three pages or less:

- a. Any previous funding or applications for funding related to this project;
- b. Any supplemental funding currently being sought, along with other sources, amounts and anticipated notification date, and;
- c. Describe briefly the overall plan for your research in this area, with special attention to the role of the funds requested from the RGC in that plan. It should be noted that acceptance of a grant from the RGC carries with it the obligation to notify the RGC of other funds awarded, at any time during the grant period, for the conduct of this project.

5. Describe the proposed research project on additional pages, using the outline below. Abbreviations should not be used without an explanation and/or diagrams for clarification. Limit proposals to a total of 10 pages for the description of purposes, background and significance, previous works, design and methods. Justification of sample size should be included. (Bibliography, application, C.V. are considered attachments).

- a. A clear, concise statement of specific aim (purpose)
- b. Significance of the proposed research
- c. Previous work related to this problem by others and yourself
- d. Research plan, including methods and materials (detail and clarity are essential, but be as succinct as possible) and power calculations to document the statistical validity of your sample.
