AI POLICY

5.1 Policy purpose

The policy outlines how to use artificial intelligence responsibly in research, academic writing, education, and management.

5.2 Allowed uses

Artificial intelligence can be applied in polishing, proofreading, formatting, programming, arranging literature, and other supporting tasks under human supervision.

5.3 Forbidden uses

Artificial intelligence should never be applied to make up data, create false references, misreport results, replace human judgment in science, or work with sensitive patients' data.

5.4 Disclosure

It is mandatory to disclose any use of artificial intelligence in theses, manuscripts, reports, and presentations.

5.5 Authorship

AI cannot be listed as an author or co-author. Human users remain fully responsible for the accuracy, originality, ethics, and integrity of the work.
